A spine and shoulder that as the person stood could be seen was out of line as one side was lower than the other was brought into alignment. The arms were grown out and the pain in the lower back left. The woman said she believed she was hearing more. We clapped and thanked Jesus. Another person said she had stiffness and much pain in her knees. She had not been given a diagnosis but thought it might be arthritis. Her legs were grown out and she was laid hands on for TPT and rebuked any infection. She got up from where she was sitting while her legs grew out with no difficulty. To demonstrate what she had not been able to do before, she lifted high her knees, one after the other; she bent over touching the floor, and thanking Jesus said she had no pain as she continued to walk about.

An elderly woman, who is in a nursing home and was brought by her daughter, had movement limitations in her arms and legs and obvious brain damage. We ministered to her, commanding the death spirit to come out of her brain cells and laying hands on her asked Jesus for a new brain with all its normal functioning. She showed signs of responding by talking more normally; she could raise her afflicted arm higher, walk better and repeated 'Thank you Jesus'. Just as we thought she was going all the way, she began saying 'God is not here' and did not change as she left with her daughter; but, with the healing that had manifested. The daughter said she liked God's work through us and will bring her back.

We laid hands on a woman who had swelling in her foot and ankle; laid hands on some prayer requests that had been sent and called in to us, before ending the service with a version of "Amazing Grace."

A lady from the Greenville Healing School had horrible back problems and pain made worse by surgeries that did more harm than good, one because of the surgeons mistakes (She had had long time, deep hurt and anger at that Dr. and led her in true repentance and praying for/blessing him last week. *One person needed an overhaul: "Everything was so important that they prayed the love of God."

*Most of our fifteen people we prayed for needed healing in families, relationships, and a place to come and release hurts, wounds, forgiveness, and healing. We were there!

● **More From Minnesota**

The Worldwide Day of Healing was great success! God's presence was felt as you entered the building, the Holy Spirit's power was evident in the ministry of healing and it was Jesus who paid it all!

Along with Linda and I, twenty students joined us for one of the greatest ministry teams God gathered for the day! Although a few of our guests were initially disappointed that Charles and Francis were not with us, they came for prayer and were ministered to.

Of the twenty-two guests we ministered to, I have received reports from about half of them. One said, "There was something that happened in my body!", another, "I am standing on the word of God for total and complete healing in the next three months" others filled out testimony of healing before they left the building, "as they prayed for me to release my burdens (family problems) my posture improved. PTL!" Two of our guests were ushered into the Kingdom and a handful of others were filled with the Holy Spirit and spoke in other languages right away and many were refreshed, all were invited to our next school!

Beside all the guests, many of us were ministered to as well, strongholds were torn down, freedom rang in the sanctuary as the shackles fell to the floor and family members and others were interceded for!

● **Fayetteville, Pennsylvania - Greenwood Assembly of God**

I just wanted to get a small offering to you. Our small church of about 27 members hosted a healing school in Sept., and participated in the Worldwide Day of healing on the 22nd. 6 people completed the whole class, and 12 others took parts of it. 5 came out to minister, and we ministered to 7 individuals in the church and over 3 more by e-mail. This Sunday AM 3 of those ministered to came to service. 1 stood to testify that there was a lot of family healing since we prayed for her. Please, as a ministry, keep our church in prayer. We are small, but I still believe God has a destiny for us.

What a powerful manifestation of God's power around here at C.T.L. this past Saturday, September 22nd! If our relatively small gathering here was any indication of what God was doing all around the world, then there has to be multitudes of people who are in much better shape today than they were Saturday! Praise God! God manifested himself in a wonderful way. So far we have received testimony of:

*One person receiving Christ as Savior; one was healed of I.B.S. (irritable bowel syndrome).

*One had a bone spur removed by the power of God and has no more pain from it.

Those are just some that we know about right off the top. We are expecting some more good reports of God's healing power. Although we are a small church (just for now) we want to start a Healing School here, and plan on having regular healing services.

We had another wonderful Day of Healing Sept. 22, 2007. Our church is in the process of moving, so we held our meeting at a nearby hotel. Many received healing prayers as 3 healing teams from 3 different churches joined together. One gentleman received multiple healings from the top of his head to his feet. He was healed of diabetes, back problems, high blood pressure, and digestive problems. Another lady was unable to raise her arm to praise the Lord. After the healing prayer she was over-joyed at being able to lift her hand high over her head and praise our King.

Many received healing from neck and back pain as we administered the TTT. We are still receiving testimonies of healings from our follow ups. We assigned every healing team member several persons to call within a week or 2 to check on progress.

We also anointed a handful of prayer cloths. Everyone took one, but we had one very special healing. One of our team members took a prayer cloth to her mother-in-law who was suffering from painful boils on her back. She belonged to a traditional church who doesn't believe in healing. She put the prayer cloth under her pillow and within a week all the boils on her back

little pink squares of cloth) to put under my pillow and I believe I will be healed from heart problems. This week he passed his stress test with flying color Praise the Lord!

● **Amarillo, Texas - Miracle Covenant Church Healing Center**

On September 22, 2007, we had a marvelous time in the Lord. We had approximately 43 people to attend the Worldwide Day of Healing for prayer. We had prayer teams made up from several different churches that had taken the How to Heal the Sick classes and graduated. The glory of the Lord was in the house to heal! It was so sweet and precious how the Spirit of the Lord moved amongst the people.

Many were touched by the Lord and received notable healings in their bodies.

She could not raise her left arm. After prayer, we asked her to do something she could not do before. She said that she could not raise her arm, and she raised it over her head, and she bent over and touched her toes. Praise the Lord.

*A couple came in for prayer for their family to be restored, and restoration came as the peace of God came forth over both of them. They said they believe that God has answered their prayers.

*A man came in with back pain and left healed. No back pain and no stiffness. Praise God.

*A woman came in not able to breath. Just to walk across the room totally wore her out into fatigue. She had pressure on the heart, swelling in the legs and feet, possible blood clots in the chest or legs. After prayer she could breathe deep, swelling started leaving her legs, and she could walk from the back to the front of the church and across the podium without losing her breath and getting tired. The next day she went to the doctor and they could not find anything wrong in her body. The Holy Spirit shook her and wined and dined her to health that day. Thank you Jesus! She gives her testimony wherever she goes. Praise the Lord.

● **Eagle Lake, Texas - Living Hope Church**

We were so excited about last year's meetings and were anxious to participate in the first Worldwide Day of Healing.

We held our healing service at Living Hope in Eagle Lake from 9:00 until noon on Saturday, September 22. We prepared by teaching on healing and prayer for the meetings and the Lord moved in a remarkable way. The meeting was attended by several from the community besides our church members and we were able to minister to degenerative eye conditions, a couple of diabetics and many back related problems. We are convinced that God wants to use the signs of healing as an evangelistic tool in our city.

We were able to teach those we prayed for in how to confess the Word and how to keep their healings. We had obtained a supply of "What's New" and it was well received by those who came.

Pastor Mercy looks forward to wearing her 'Need Prayer—Ask Me' shirt during the week to the grocery store, Wal-Mart, and etc.

● **Houston, Texas - Daystar Studio**

We wanted to tell you about one particular miracle healing. Perhaps hearing what happened from our perspective can be useful to others. There was a lady in a wheelchair that came to receive healing. She was accompanied by her sister who pushed her into the room. Our three person prayer team was asked to pray with her. She was asked what she wanted to be healed of. She said she had Parkinson disease and arthritis in her knees. She also said her right knee cartilage was missing. The team took out Joan's book "Healing the Whole Man Handbook" and

did exactly what it said. Nothing seemed to happen and she did not get up. Several things were tried but nothing happened.

It was remembered that Kenneth Hagin had said that although the anointing might not always be present to heal, the prayer of faith never fails. It always works. A prayer of faith and agreement was prayed. This is how we remember it being prayed.

Father, we ask you to heal this lady today. You said in I John 5:14-15 that this is the confidence we have in you, that if we ask anything according to your will, you hear us. And if you hear us, we have what we ask of you. In John 16:23-24 Jesus said that whatever we ask you for in His name you would give it to us so that our joy would be full. Moreover in Matthew 18:19 you said that if two of us agree on earth concerning anything that we ask that it would come to pass for us of our Father in Heaven. Now in 2 Pet. 2:24 it says that we were healed by His stripes. Father we expect her to be healed today. Now Holy Father we ask you in Jesus name to heal her today so that our joy may be full and I release this prayer to you in the authority given to us to use His name. Another healing team member said, "Father, I agree with this prayer and release it to you in Jesus' name."

A team member then stood on each side of the wheelchair. Each person held out a hand and she was told she could hold on to our hands to steady herself but we would not do anything else. We were only there for her to steady herself. She took our hands. She was told to stand up in Jesus' name. She readily stood up. She was told to walk in Jesus' name. Nothing happened. She was told to take a step in faith and God would meet her. Nothing seemed to happen. There there was a jolt in her stomach. Nothing else seemed to happen. Then there was a jolt in her knees. A few moments later she moved her right foot forward about a half a step. After a short delay she took about three or four short steps. We continued to let her hold on to our hands. Then she began to walk. Then she began to run. She put her hands above her head and began to dance and to praise God. After a few minutes of this she headed for her wheelchair. She was strongly commanded to not sit in the wheelchair but to sit down in a regular chair, rest a little bit and then to get up and walk some more as she needed to build up her strength since she had not walked for awhile. It was as if the words gushed out of themselves. When she left at the end of the meeting she was walking and her sister was beside her pushing the wheelchair. Praise God for a great miracle. Jesus is so wonderful.

We thought we should relate to you how we saw this miracle happen. It seemed to us that some of the prayer teams needed to know that the prayer of Faith does work every time if we cooperate with Jesus and do what needs to be done. It is very important not to express any doubt and unbelief, to pray God's will (His Word) only, and to ask the Father in Jesus' name. A second believer must agree out loud in Jesus' name with the prayer. The person seeking healing must release their faith by doing something they couldn't do before. My experience is that to ask the same thing the same way the second time is an act of unbelief. If one must pray again then Isaiah 43:25-26 (Amplified Bible) applies. Remind God what you asked for, present your case (scriptures that show it is already yours), tell Him what you expect to see and then praise and thank Him for hearing and granting your petition.

Charles and Frances we love you in the Lord and are not trying to teach you. After all you are our parents in the Lord and know far more than we do. We honor our parents. We tell you these things only because we perceived that some of the team members needed to know this and we felt led by Jesus to tell you.
